Join the lesson

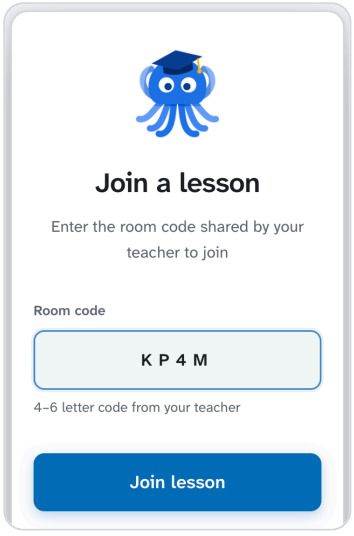

Use a phone, tablet or laptop. You don't need an account.

1 Go to octodecks.app

Type it into any web browser, or scan the code.

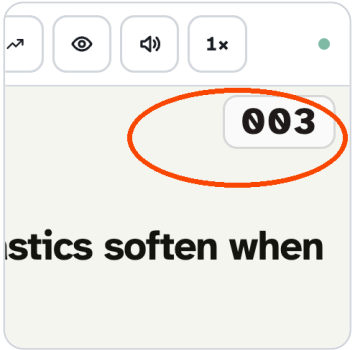

2 Type the room code

It's on the board. Then tap **Join lesson**.

3 Remember your number

You get a number like **003** for this lesson. Your teacher sees your number, not your name.

Your screen follows the board. Use the buttons at the top to make the text bigger, change the font or colour, or hear the slide read aloud.

Don't type your name or anything private into an answer. Answers are deleted when your teacher ends the lesson.
